MARCH 2024

Spring has Sprung!

As we enter into these warmer months we are super excited to spend lots of time out in our Outdoor Art and Science center. The children love getting their hands dirty; planting, painting, and experimenting outdoors!

Monthly Curriculum

This month the children will be focusing on:

Reading with Dr. Seuss - every classroom will read and participate in activities revolving around several of the most popular Dr. Seuss books and end the week with a "birthday party" in honor of Dr. Seuss himself!

Seeds, Flowers, & Planting- Children will dive into some planting, and discuss all the parts of plants, as well as the other signs of spring.

St. Patrick's— classrooms will go over the concept of the Holiday, including how to make the color green! We will also have our special potluck this week!

Life on the Farm— teachers will discuss various farm animals, sort them by size, color, and how many legs the animals have. Children will also learn about farms and crops during this week.

Easter Fun— as we enter into Spring the kids will focus a week on Easter. Classrooms will learn about the holiday, egg dyeing experiments, and end the week with our annual Easter Egg Hunt!

OPEN HOUSE

We will be hosting **OPEN HOUSE** this year on Friday, March 8th. It will be held from 4pm-6pm, so you are welcomed to stop by between those times. More details on where to meet and how it will be organized will be given separately the week before. Can't wait to see everyone there!
